# SKILLSBUILD FOR COLLEGES

EDUNET FOUNDATION

# Edunet Foundation

**Registered Trust**  
Recognized under  
sections 12AA and  
80G of Income Tax  
Act.

**GuideStar Verified**  
for transparency

**Great Place To Work**  
Certified

**Special Consultative  
Status  
with the United  
Nations**

## Goal

Creation of educational networks and sustainable communities

## Focus

4<sup>th</sup> & 5<sup>th</sup> Industrial Revolution focused Employability and Entrepreneurship

## Audience

**150,000+** learners in past 12 months from K-12 schools, ITIs and colleges

More than **300,000+** Higher Education learners

## National Footprint

Large pool of technical manpower on the ground:  
70+ technical and soft-skills trainers

Over 250 active institution partnerships and access to tens of thousands of students

# Why this Program?

An estimated 85 million jobs may be displaced by automation by 2025 – “World Economic Forum”

Our programs are specifically designed to equip you with the essential digital skills and knowledge required by employers today

Industry-relevant projects that simulate the challenges and demands of the workplace. These projects enable you to demonstrate your skills, problem-solving abilities, and ability to deliver tangible results

**Current Job Market:**  
The job market is experiencing an increasing demand for technical skills, driven by rapid advancements in technology. IBM SkillsBuild for College equips students with the necessary expertise to meet these demands and thrive in the digital age

**Preparation for the Digital Age:**  
As technology becomes more integrated into every industry, it is crucial for students to be prepared for the digital age. IBM SkillsBuild for College ensures students are equipped with the latest industry-aligned skills, essential industry tools and knowledge to succeed in a technology-driven world

**Rewarding Career Opportunities:**  
Industry-aligned skills are essential for students to secure rewarding career opportunities. The program provides hands-on experience using real world problem statements and practical knowledge in areas such as cloud computing, artificial intelligence, and machine learning, Data Analytics, and Cyber Security enhancing students' employability and opening doors to exciting career prospects

*aims to provide students with essential technical skills and training to enhance their employability and prepare them for the industry.* The program offers a range of online courses and resources designed to develop both technical with hands-on project experience as well as professional skills.

Key features of the SkillsBuild for College Program include:

- **Courseware:** Access to courseware that offers the foundation for technology jobs of tomorrow, including emerging technologies, data science, cybersecurity, artificial intelligence and cloud computing
- **Access to IBM Cloud and Software:** Enhanced access to the IBM Cloud and select cloud-based resources, applications, and software's used in present day jobs
- **Hands-on Projects:** The program includes practical assignments and projects that enable students to apply their knowledge and gain hands-on experience in real-world scenarios.
- **Badges and Certifications:** Upon successful completion of courses, students earn digital badges and certifications from IBM, validating their skills and accomplishment

## INSTRUCTOR'S PROFILE

- **Name-** Yogesh Raje
- Trained over 15,000+ engineers through workshops and webinars on Python Programming, AI , Data Science , Machine Learning and Deep Learning, and cloud computing.
- **Experience -** 23 Years.
- Helps learners with AI-ML ,Data Science and Cloud technology every day!
- Certified Instructor for Machine Learning and cloud computing.
- Currently working as Master Trainer at Edunet Foundation

November 2023

A screenshot of a web-based email application. The top navigation bar includes links for Mail, Contacts, Calendar, Tasks, and Preferences. A "New Message" button is highlighted with a dropdown menu containing options like Reply, Reply to All, Forward, Archive, Delete, Spam, and Actions. The main content area is titled "Mail Folders" and shows a list with "Inbox" selected. Below the list is a search bar with the placeholder "Sorted by: Date". A large message box displays the text "No results found." at the bottom. On the left side, there are additional sections for Searches, Tags, and Zimlets, each with a gear icon. At the bottom, a date navigation bar shows "November 2023" with arrows for navigation. The overall theme is blue and white, with the edunet foundation logo at the top left.

## About your IBMid Account

By creating, or using, an IBMid to access an IBM Web site or other service, you acknowledge that you have read, understand, and agree to be bound by the below terms, in addition to the terms in the IBM Terms of Use, the IBM Privacy Agreement and the "About your IBMid Account Privacy" section of this notice provide details on how IBM protects your personal data.

Most IBMid accounts are individual IDs, meaning you manage your own account information and access your account through the IBMid login service (i.e. IBMid is the authenticating agency).

If your account is created using an email address containing a domain owned by an organization which you are employed by, contracted to, or volunteer for, your organization can:

- inquire about the status of your ID
- request your account settings (including your personal information)
- at its option, convert it to an enterprise ID.

If your account was created as (or is converted to) an enterprise ID, your organization manages your account information. It is also the authenticating agency for your ID, meaning your access is controlled by your organization's login service.

### Privacy Notice for IBM Comprehend Services IBM SkillsBuild

**IBM SkillsBuild** processes Personal Information (PI) for the administration of your course registration, to provide you with access to the course materials and support during your use of our digital course materials.

In addition, **IBM SkillsBuild** tracks your use of the services in connection with enrollment support results and completion information in connection with providing you with digital credentials and where applicable to inform your organization about your progress.

**IBM SkillsBuild** also collects information about your use of the services and the platform to improve its functionality and user friendliness and maintain and provide you with features and functions that enhance the learning experience.

More details can be found below. Information about how **IBM SkillsBuild** with IBM handles your personal information, and how to exercise your rights, can be found in <https://www.ibm.com/privacy> - we request your contact details, email address and where applicable the organization you work for, in the registration form. These are used for our administration, to give you access to the services, to identify where applicable your organization in the event your participation in courses is organized by your organization, or in scope of a contract with that organization. We will use your email address to contact you in connection with support or any administrative issues.

We track your results and completion to be able to provide you with your course credentials.

For **IBM Employees**, results and course completion are shared with YourLearning, which may be used for IBM's skill tooling and programs. For IBM education programs, course completion is shared with your manager and your direct management may request progress reports about your enrollments and progress from **IBM SkillsBuild**. The reports will be made available if requested. You can read more about how IBM deals with Privacy in the IBM Internal Privacy Statement (<https://www.ibm.com/privacy/details>).

For **employees of IBM Business Partners**, reports about training enrollment, progress and completion is reported to the Partnerworld Ecosystem in relation to compliance with the initiative requirements for programs such as Know Your IBM (KYI) and Partnerworld Ecosystem metrics. The Partnerworld Ecosystem team may contact you to ask you to participate in a survey to measure the experience on our website.

For persons following **any other program**, initiated and organized by their organization, we may also provide reports to their organization as agreed with that organization. Persons participating in such programs should agree to provide them with information about such reporting.

To provide IBM Digital Credentials - **IBM SkillsBuild** offer self-paced video courses, and quizzes that may qualify you for an **IBM Digital Badge**. IBM leverages the services of Credly, a 3rd party, to assist in the administration of the IBM Digital Badge program. In order to issue a badge, your personal information (name, email address, and badge earned) will be shared with Credly. You will receive an email with instructions for claiming the badge. IBM may share the personal information collected with IBM subsidiaries and third parties globally. It will be handled in accordance with IBM's privacy practices. The IBM Privacy

Click on Account Settings

The screenshot shows the IBM Cloud Account settings page. The left sidebar is dark-themed and includes sections for Account resources, Tags, Dashboards, Account settings (which is selected), IBM Cloud Shell settings, Notification distribution list, Classic infrastructure (with Subscriptions and Audit log), and Company information. The main content area has a light background. At the top, there's a search bar and navigation links for Catalog, Manage, and Support. Below the search bar, the title "Account settings" is displayed. A blue callout box highlights the "Account Type" section, which shows "Trial (Free)" and "395 days remaining in Trial". The "Account upgrade" section contains two main options: "Pay-As-You-Go" and "Subscription". The "Pay-As-You-Go" section explains that adding a credit card unlocks full power and mentions runtime and service allowances. It includes a "Learn more" link and a blue "Add credit card" button. The "Subscription" section explains discounted pricing and increased billing predictability, with a "Learn more" link. It also features a black "Upgrade" button. On the right side, there's a "Need help?" section with a "Contact sales" link and a blue speech bubble icon.

## Account settings

Account

Account Type  
Trial (Free)  
395 days remaining in Trial

### Account upgrade

**Pay-As-You-Go**

Add your credit card to unlock the full power of IBM Cloud with a Pay-As-You-Go account. You'll still be eligible for free runtime and service allowances, and you'll be charged only for paid services that you use.  
[Learn more](#)

[Add credit card](#)

**Subscription**

Get discounted pricing and increased billing predictability when you commit to a set amount of usage over time. [Learn more](#)

[Upgrade](#)
